Number 1

2.		
Editorial		v
ANATOMY SPECIAL		
Archaeology		
1. Historical sketch and anatomical comment		1
A.S. Saber		
2. Identification of Parts of a Camel Skeleton (3200 B.C.) kept in the agricultural museum in Egypt 3-		
A.S.Saber and H.A.Khattab		
Circulatory system		
3. Histomorphologic observations on the blood supply of the ovaries of she-camel (Camelus dromedarius)		7
K.K.Kadhim, W.A.Khamas and A.J.Al-Shaikhly		
4. Studies on the ileal lymphoid tissue (peyer's patches) in camels, Najdi sheep and cattle		13
A.M.Alluwaimi, M.R.Fath El-Bab, A.K.Ahmed and A.M.A.Ali		
5. Contrast radiography of the veins draining the fore foot of camel (Camelus dromedarius)		19
R.K.Jain, L.D.Dhingra and S.K.Nagpal		
Digestive system		
6. Radiographic studies on the development of teeth in camels		23
N.A.Misk, H.A.Youssef, M.A.Semiea and A.H.El-Khabery		
7. Histochemical characterisation of the palatine salivary glands of the one-humped camel (Camelus dromedarius)		39
Noory T.Taib, Bashir M.Jarrar and Mohammed M.Shobrak		
8. Scanning electron-microscopic studies on the tongue papillae of camel		47
Pawan Kumar, Gurdial Singh and S.K.Nagpal		
9. Scanning electron-microscopy of the papillary body of the rumen and reticulum of the one-humped camel (Camelus dromedarius)		51
A.S.Saber and K.D.Weyrauch		
Endocrine system		
10. Anatomy of the pancreas of the one-humped camel (Camelus dromedarius)		57
A.A.M.Taha and E.M.Abdel Magied		
11. Histological and histochemical studies on pancreas of camel (Camelus dromedarius)		61
M.Tadjalii and A.Meamary		
Musculo-skeletal system		
12. Arthrographic evaluation of the stifle joint in the camel (Camelus dromedarius)		67
Lotfia S.Fahmy, M.B.Mustafa, K.A.Farag and AA Hegazy		
Nervous system		
13. Variations in the length of the dorsal root attachments and interroot intervals of the spinal cord segments during postnatal life of camel (Camelus dromedarius)		71
S.Gholami, S.R.Ghazi and Z.Khaksar		
14. Allometric growth of the spinal cord in relation to the vertebral column during postnatal life in one humped male camel (Camelus dromedarius)		75
S.R.Ghazi, S.Gholami and Z.Khaksar		
15. Postnatal changes in the angulation of spinal nerves and the length of dorsal roots in male camels (Camelus dromedarius)		81
S.R.Ghazi, S.Gholami and Z.Khaksar		
Reproductive system		
16. Development of the maternal microvascularisation of the one-humped camel placenta-a scanning electron microscopic study		85
M.M.Abdel-Naeim, A.S.Saber, A.Abo-El Magd and R.Leiser		
Respiratory system		
17. Histology of the posterior choanae of camel (Camelus dromedarius)		97-

18. Histological studies on the nasal cavity of indian camel	99
Suman, Gurdial Singh and S.K.Nagpal	
Urinary system	
19. Microscopic study of uriniferous tubules and collecting ducts of kidney in camel (Camelus dromedarius)	107
Geeta Beniwal, Kalyan Singh and Sanjeev Joshi	
20. Prenatal development of the camel (Camelus dromedarius) kidney: morphogenesis of metanephros	111
M.A.El-Hairry, A.A.Gabr and K.A.Attia	
21. Prenatal development of the camel (Camelus dromedarius) kidney: morphogenesis of mesonephros	115
M.A.El-Hairry, A.A.Gabr and K.A.Attia	
Other Manuscripts and regular columns	
22. Clinical enzymology in the camel (Camelus dromedarius) (Part III)	119
M.Bengoumi, B.Faye and F.De La Farge	
23. Clinical enzymology in the camel (Camelus dromedarius) (Part IV)	123
M.Bengoumi, B.Faye and F.De La Farge	
24. An outbreak of generalised pox among draught camels in Faisalabad city	127
Ghulam Muhammed, M.Zargham Khan and M.Athar	
25. Camel pastoralism in the Butana region of Eastern Sudan: Common diseases with emphasis on brucellosis	131
H.Agab	
26. Motility pattern and flow of digesta in the forestomach of the camel (Camelus dromedarius)	137
T.E.A.Osman and W.v.Engelhardt	
27. Purification and characterisation of urease from ruminal fluid of camel (Camelus dromedarius)	143
Afaf S.Fahmy, Nawal Y.Abadir and Basem M.Abd-Alia	
28. Camel papillomatosis in the Sudan	157
A.I.Khalafalla, Z.Abbas and M.E.H. Mohamed	
Ethnoveterinary Practice	
29. Traditional treatment methods of camels in Eastern Sudan with emphasis of firing	161
H.Agab	
30.Camel Practice and Research	
a.Camel Practice	
(i) Streptococcus zooepidemicus infection in a female camel	165
A.M.Ibrahim, A.A.Abdelghaffar and M.E.Fadlalia	
(ii) Prevalence of Dipeta/onema evansi in camels of Rajasthan	166
K.M.L.Pathak, Y.Singh and D.L.Harsh	
(iii) Oedema disease in female camels (Camelus dromedarius) in Bahrain	167
A.M. Ibrahim, A.A.Abdelghaffar, M.E.Fadlalla, M.N.Nayel, B.A.Ibrahim and A.S.Adam	
(iv) Prevalence of nasal myiasis in slaughtered camels (Camelus dromedarius) in the arid and semi-arid regions of Nigeria	170
Nwosu C.O. and C.S.Wachy	
b.Camel Research	
(i) Institutional Research:Faculty of Veterinary Science, University of Faisalabad, Pakistan	173
(ii) Postgraduate Thesis Abstracts	
31. News	160
32. Book Review	156
33. Instructions to contributors	177
